

# Threads - What's the BIG Deal?

GSQA Quarterly Meeting - Program Lecture July 20, 2024 - Baton Rouge, LA

Nina Clotfelter

You'll learn everything you didn't know you needed to know about threads! Nina will cover topics like different types of thread and their purpose, ply and what it is, weight and why it matters, metallic threads and how to make them work for you, monofilament threads and how and when to use them, and so much more! Come join us for a fun information filled lecture about threads!

Nina Clotfelter has been sewing all her life...it's simply part of her DNA! Once she discovered the world of quilting she knew she had found her place! The free motion quilting is her favorite part of the quilting process, and playing with all those threads!

As an educator for WonderFil Threads, Nina loves sharing her playful nature when it comes to creating with threads and using the different types and weights of threads to your advantage.
